

Please ensure that we continue to have free speech in America by doing all you can to avoid a monopoly of ownership. It is common knowledge that owners of media outlets heavily influence content. It is for this reason that this issue is so vital. Do we really want a country where the views of a few control the views of the many? This is exactly the type of despotic behavior we claim to despise in regimes such as Iraq, Cuba, etc. At the very least, considering how important this issue is to public welfare, there should be a public debate where all views are heard.

Sincerely,

Catherine Rybicki
